Wisconsin Power and Light Company (“WPL”) respectfully withdraws its application for confidential status of certain information contained in the WPL and Wisconsin Electric Power Company’s (WEPCO) application for a certificate of authority to install a SCR on Unit 5 at the Edgewater Generating Station and the appendices to the application, which was dated the November 13, 2008 and was made, in part, pursuant to Wis. In this docket and other proceedings and dockets, WPL may request confidential status of information related to EGEAS, inputs into EGEAS models, or results from EGEAS models, including net present value revenue requirements.

Accompanying this withdrawal of the application for confidential status is a full version of the joint application for a certificate of authority to install an SCR on Unit 5 at the Edgewater Generating Station.
